Web Developer
Charleston, SC

I.M. Systems Group, Inc. (IMSG) (www.imsg.com) seeks a talented web developer to support our contract with the National Oceanic and Atmospheric Administration (NOAA) Coastal Services Center (CSC) in Charleston, SC.

The ideal candidate will be an addition to our Web development team and will be responsible for supporting a variety of Coastal Services Center projects.

Responsibilities

- Actively participate in the design, creation and implementation of Web sites
- Collaborate with project staff and external project partners in making improvements and incorporating feedback for project Web sites
- Provide updates as needed to intranet and public Center Web sites
- Provide peer code review

Qualifications

- Excellent understanding and proven implementation of HTML and CSS.
- Demonstrated proficiency in the use of graphic packages such as Adobe Photoshop, Adobe Illustrator or Paintshop Pro.
- Demonstrated proficiency in at least one Web scripting language such as JSP, Perl, or ASP and some experience with database design and implementation (e.g. SQL Server, MySQL, or Microsoft Access).
- Familiarity with site accessibility, Section 508 compliance, and Web site usability.
- Excellent communication skills with the ability to generate creative ideas and provide feedback to project teams

About the Coastal Services Center

The Coastal Services Center is part of the National Oceanic and Atmospheric Administration's (NOAA) National Ocean Service. Established in 1994, the Center works with various branches of NOAA and other federal agencies to bring information, services, and technology to the nation's coastal resource managers.   For more information, visit the Center's Web site at www.csc.noaa.gov .
